EXPERIENCE

Cal State Polytechnic University, Pomona, CA — *Camp Mentor*

June 2018 - Aug 2019

- Mentored Middle school and Highschool students at a STEAM Summer Camp where I was tasked to guide them through a week's worth of activities and classes.
- Developed my responsibility and multi-tasking skills which will translate well to a fast paced work environment.

Burnett and Son Meat Co., Monrovia, CA — *Data Entry Assistant*

June 2016 - Aug 2016

- Completed various tasks on the company's ERP System which included invoicing and creating weekly spreadsheets detailing sales and inventory reports.
- Developed my ability to reconcile variances. Delivering detailed reports to management for each task I was assigned.

EDUCATION

Gonzaga University, Spokane, WA — Major: *Computer Science*

Minor: Mathematics

GPA: 3.16

Aug 2017 - Present(Expected Graduation: May 2021)

- Relevant Courses: Algorithmic & Abstract data structures, Object Oriented & Event Driven Programming, Database Management Systems, Data Science Algorithms, Design & Analysis of complex Algorithms, Cryptography

PROJECTS

Boeing 360 — *Full stack Senior Design Project (in progress)*

Used: NodeJS, CSS, HTML, and PHP

- In conjunction with Boeing, my team and I are developing a web application where users are able to view 360 degree footage from within an aircraft during flight.
- Users will also be able to interact with Points of interest (POI's) and view details of that POI based on their current location and a set radius.

TutorMe — *Android Application used to find a tutor*

USED: Java, Android Studio

- Built a native Android application that allows users to find a tutor for a specific subject as well as having the ability to message that tutor right on the application increasing the availability of tutors on a college campus.
- Utilizes Google's firebase authentication, database, and firestore.
